A WORLD OF 3DIGITAL POSSIBILITIES

3DBUILT
DIGITAL EMBOSSING TECHNOLOGY

Stn Cerámica's 3DBUILT product line integrates available technologies that allow the creation of reliefs and 3D effects by means of digital printing on flat surfaces.

3DBUILT offers a wide variety of digital materials, which feature different relief and surface effects generated through digital printing. These products are extremely natural looking and have unique technical and aesthetic properties.

This evolution brings ceramics closer to sensory experiences that evoke nature itself, such as marble veins, stone sediments, wood fibres, fabrics or concrete textures.

Stn Ceramica continues to lead the way in technology and design, committed to the creation of surfaces that embrace welcoming atmospheres and highly sophisticated spaces.

La línea de productos 3DBUILT de Stn Cerámica integra las tecnologías disponibles que permiten la creación de relieves y efectos 3D mediante impresión digital sobre superficies lisas.

3DBUILT ofrece una amplia variedad de materiales digitales, los cuales presentan distintos efectos de relieve y superficie generados a través de impresión digital. Estos productos resultan extremadamente naturales y poseen propiedades técnicas y estéticas únicas.

Esta evolución acerca la cerámica a experiencias sensoriales que evocan a la naturaleza misma, como las vetas del mármol, los sedimentos de las piedras, las fibras de la madera, los tejidos o las texturas cementosas.

Stn Cerámica continúa liderando en tecnología y diseño, apostando por la creación de superficies que generan ambientes envolventes y espacios de gran sofisticación.

3DBUILT SUPERFICIAL SINKING INK | TINTA PENETRANTE SOBRE ESMALTE (SSi)

The reactive SINKING ink applied to the glazed ceramic piece allows textures to be added to the surfaces. This digital technique offers the possibility of improving the visual appearance of ceramic products with high definition.

La tinta penetrante reactiva aplicada sobre la pieza cerámica esmaltada permite añadir texturas a las superficies. Esta técnica digital ofrece la posibilidad de mejorar, con una gran definición, el aspecto visual de los productos cerámicos.

3DBUILT DEEP SINKING INK ON BISCUIT | TINTA PENETRANTE SOBRE SOPORTE (DSi)

The technique of SINKING ink on ceramic support is an evolution that makes it possible to achieve reliefs and textures of a depth and definition never seen before, as it is applied digitally directly on the support before glazing.

La técnica de tinta penetrante sobre soporte cerámico es una evolución que permite lograr relieves y texturas de una profundidad y definición nunca antes vistas, al aplicarse de manera digital directamente sobre el soporte antes del esmaltado.

3DBUILT DIGITAL GRIT- GLUE | GRANILLA-COLA DIGITAL (DGi)

Grit with glue applied digitally is the most advanced technique in the treatment of textures on ceramic surfaces. This application consists of synchronising the glue with the design using digital technology. This process allows the creation of unique textures and finishes with a high level of detail and volume.

La granilla con cola aplicada digitalmente es la técnica más avanzada en el tratamiento de texturas sobre la superficie cerámica. Esta aplicación consiste en sincronizar la cola con el diseño mediante tecnología digital. Este proceso permite crear texturas y acabados únicos con un alto nivel de detalle y volumen.

Casona reinterprets the essence of traditional cotto with a sincere aesthetic rich in history. Its reddish tones, with earthy nuances and soft gradients, evoke the warmth of slow-fired clay floors found in colonial courtyards and Mediterranean interiors. The irregular graphic design of each piece adds a rustic and genuine character, with a visual effect that reflects the passage of time and the value of manual work. Casona conveys a sense of closeness and rootedness; it's a proposal that transforms spaces with the strength of tradition reimagined through ceramic design.

Casona reinterpreta la esencia del cotto tradicional con una estética sincera y cargada de historia. Sus tonos rojizos, con matices terrosos y degradados suaves, evocan el calor de los suelos cocidos a fuego lento, presentes en patios coloniales y estancias mediterráneas. La gráfica irregular de cada pieza aporta un carácter rústico y genuino, con un efecto visual que remite al paso del tiempo y al valor de lo hecho a mano. Casona transmite cercanía y arraigo, es una propuesta que transforma el espacio con la fuerza de la tradición reinterpretada en clave cerámica.
